Juhani Manninen

Information technology student

I am a highly motivated IT student in my fourth year of pursuing a Bachelor's degree at LUT University. Possessing a solid foundation in Python and programming in general, I have the technical skills to excel as a software engineer. A combination of my strong work ethic and communication skills would make me an outstanding asset to your team.

Portfolio

Education

Bachelor of Science
Lappeenranta-Lahti University of Technology LUT
2020 Autumn - 2024 Spring

Skills

- Python
- Problem solving
- Databases
- HTML / CSS / JS / Node
- Git
- Communication and teamwork
- Independendency

Language

Finnish - Native

English - Intermediate (B2)

Swedish - Beginner

Experience

2023

Database systems management

- Created and managed databases using PostgreSQL, incorporating ER models for efficient data organization.

Web development

- Developed dynamic web pages using HTML, CSS, JavaScript, Node.js, and MongoDB.
- Programmed full-stack websites, showcasing proficiency in both front-end and back-end technologies.
- Created a 2D sidescroller game using Phaser 3 and JavaScript, demonstrating creativity and coding skills.

2022

Data structures and algorithms

- Applied advanced Python programming concepts in practical scenarios.
- Developed a program utilizing open hashing algorithms and linked lists to compare large sets of data, emphasizing efficiency and documentation.

Object-oriented programming

- Acquired foundational knowledge of OOP principles using Java.
- Collaborated in a team of three to create a movie app with Android Studio, integrating Finnkino's API for real-time movie information.

2021

Basics of software testing

- Gained proficiency in software testing and debugging.
- Implemented unit and integration tests using Java.

Software engineering

- Explored the fundamentals of software engineering.
- Collaborated in a team of four to conduct requirements gathering for a fictional company's software, improving teamwork and documentation skills.
